## **NEW JOBS, the Business PAC of New Jersey, Endorses Candidates for State Legislature**

New Jersey Organization for a Better State (NEW JOBS) PAC, which is the voice of business, proudly announced its endorsements for the 2019 State Legislative races today.

NEW JOBS is the State's largest and most influential ideological business political action committee. Other interest groups put their backing behind candidates who understand their specific issues. We do the same in supporting candidates for New Jersey Legislature that protect and defend business.

The New Jersey Organization for a Better State (NEW JOBS) is a nonpartisan organization whose trustees promote a pro-business climate in New Jersey by endorsing and supporting legislative candidates who actively support economic growth, the creation of private-sector jobs, and the lowering of business costs.

"We thank the endorsed candidates and endorsed incumbent legislators for their commitment to the economic viability and competitiveness of our State," Executive Director Chrissy Buteas said.

The endorsements made by NEW JOBS are NOT an endorsement from the New Jersey Business and Industry Association (NJBIA) or any other individual company, industry group or trade association. While many organizations like the NJBIA are affiliated with the NEW JOBS PAC, and represented on its Board of Trustees, the PAC is a separate entity.

To find out more about NEW JOBS, please go to [www.newjobspac.com](http://www.newjobspac.com).
